

Questionnaire for participants

Please confirm your session

The following questionnaire can be submitted before the kick-off conference/during or after. It is an instrument to ensure inclusion of all the different positions/views the participants might hold on the addressed issues. If you submit before the kick-off conference, we will try to include your suggestions in the discussion. If you submit after the sessions we will ensure consideration of your views and input at the workshops. Please make sure to identify the session your input is related to.

We briefly discussed/will discuss best practice examples during the sessions. Are you aware of any best practice examples in your area that could be explored in the workshops? If yes, please specify the topic and possibly contact persons that could be invited to the workshop

.....
.....
.....

Are you aware of any specific methodological tool or strategy (for research or implementation or dissemination) that could be discussed at the workshop or should be included in the final report? If yes, please specify

.....
.....
.....

Do you have any suggestions about contributors (scientists, public health specialists, patient associations, NGOs, political representatives, regulatory bodies etc.) that should be invited to the workshops? Please specify name of expert/institution (please limit the number to 5 stakeholders)

.....
.....
.....

Do you have any information, examples of best practice etc. how S&G is included in medical education, medical school curricula or Continuous Medical Education (CME)?

.....
.....

Would you like to make suggestions for a co-chair for the workshop?

.....
