

EUGenMed Final conference: “Presentation of the Roadmap”

Tuesday, 30th June 2015, 8.15-16.30

The Permanent Representation of the Federal Republic of Germany to the European Union,
Rue Jacques de Lalaing 8-14, 1040 Brussels, Belgium

Through the establishment of a European Gender Health Network and several thematic workshops, the European Gender Medicine Project (EUGenMed) developed a roadmap for the implementation of sex and gender in biomedicine and health research.

We produced diverse instruments (position papers, policy briefs, review papers, implementation recommendations, slides etc.) to aid the incorporation of sex and gender within the areas of medical research, health care and policy. Now, at our final conference, we will present these products and collectively define the road for future implementation.

Tuesday, 30th June 2015

- 8.15-9.45** **Registration and coffee, informal discussions with project leaders**
- 9.45-10.00** **Welcome by the official host**
The Permanent Representation of the Federal Republic of Germany to the European Union
